

TSC Website 2.0 Wireframe Outline

Stack: React (Next.js) + Node.js (API) + CMS

Recommended architecture

- **Frontend:** Next.js (React) + Framer Motion (UNFOLD motion) + Tailwind (or CSS Modules)
 - **Backend:** Node.js (NestJS/Express) for lead routing + integrations
 - **CMS (choose one):** Sanity / Strapi / Contentful
 - **Hosting:** Vercel (frontend) + Render/Fly/EC2 (Node API) + Cloudflare (assets)
-

1) Global Design DNA (applies to every page)

A. UNFOLD interaction rules

- Every section **reveals in layers** (mask reveal, line draw, fold panels)
- No “pop” animations. No loud transitions.
- Motion = **breath, ritual, unfolding manuscript**

B. Rooted Yet Contemporary cues

Rooted:

- brand motifs as subtle textures
- warm Cream canvas
- tactile photography (hands, instruments, rehearsal, scripts)

Contemporary:

- bold typography, editorial layout
- deep teal structure blocks
- minimal UI, high whitespace
- interactive infinity ecosystem diagram

C. Persistent conversion layer

Sticky top-right CTA:

- **Join as Artist**
 - **Partner with TSC**
-

2) Pages and Wireframes (Desktop-first, mobile simplified)

2.1 Home (

/

)

Wireframe Sections (top to bottom)

1) Header (sticky)

- Left: TSC logo (full lockup)
- Center: Nav (Home, Ecosystem, IP & Stories, Academy, Artists, Collaborations, About, Insights)
- Right: CTA buttons

- Primary: Join as Artist
- Secondary: Partner with TSC

Motion: header background fades from transparent → Cream on scroll.

2) Hero: “Putting artists in control.”

Layout: Split canvas

- Left: Headline + subtext + CTAs
- Right: Cinematic loop (silent) OR still that slowly parallax drifts

Copy blocks

- H1: Putting artists in control.
- Sub: A talent-centric global culture-creation engine.
- Micro-link: UNFOLD (manifesto anchor)

UNFOLD motion

- Brand mark **line-draw** (SVG stroke) → then H1 fades in line-by-line.
-

3) “Why we were born” (The tension)

Layout: 4 unfolding panels (accordion-like)

- Panel titles:
 - A hegemony of labels
 - Serving algorithms & commerce makes for predictability
 - No single talent nurture-to-monetize ecosystem
 - No direct connect with fans

Each panel:

- 1 image (metaphor) + 2-line statement

UNFOLD motion

- Each panel expands as user scrolls into it (height + opacity + slight reveal mask)
-

4) The bridge: “Spot → Nurture → Monetize”

Layout: Horizontal path / timeline (5 steps)

Spot → Mentor → Nurture → Launch → Monetise

Motion

- Pumpkin line draws from left to right as user scrolls
-

5) Core Feature: Infinity Ecosystem (interactive)

Layout: Full-width Deep Teal section

- Center: infinity loop (animated stroke)
- Center label: “Artist at the centre”
- Around: 5–6 nodes

Nodes (clickable):

- PREPARE (Online Courses)
- CREATE (Creation Cafés)
- PRODUCE (Pitch & Production)
- MONETIZE (Brand Collaborations)
- REPLICATE (Creation Campuses / Epicentres)

On click/hover: node unfolds into a mini card:

- 2 lines
- “Explore” link → respective page anchor

Mobile behavior

- Tap opens bottom sheet with node content
-

6) “For Conscious Globalists”

Layout: Typography-led + one wide image

- 3 columns:
 - For artists seeking meaning beyond noise
 - For audiences seeking emotion over doom-scrolling
 - For culture-investors & brands shaping future culture
-

7) UNFOLD Grid

Layout: 12-tile grid that appears in waves

Tiles:

Potential, Opportunities, Genres, Cultures, Geographies, Communities, Collaborations, Talent, Styles, Fandoms, IPs, Exports

Interaction

- Hover expands tile slightly + reveals one example line.
-

8) Proof of Work (“Alive & at work”)

Layout: 2-row card grid pulled from CMS

Cards:

- TSC Academy

- Main Bhi Artist
- Collaborations
- Featured IP / musical / film
- Creation Cafés (if active)

Each card:

- image + title + 1-line + CTA “View”

9) Values

4 large words in a row:

Fearlessness / Integrity / Optimism / Transparency

Hover: reveals one sentence each.

10) Final CTA: “Unfold what’s possible”

Layout: 3 pathways

- Artist: Join to be mentored, guided to realising potential
- Brand Owners: Brief a story/problem; we create cultural IP
- Producers/Financiers: Co-create original music-to-scripts pipeline

Buttons:

- Apply as Artist
- Partner Brief
- Co-Create with TSC

2.2 Ecosystem (

/ecosystem

)

Hero

- H1: UNFOLD — The Living Ecosystem
- Sub: PREPARE → CREATE → PRODUCE → MONETIZE → REPLICATE

Core section

- Full interactive ecosystem diagram (bigger than homepage)
- Each node opens:
 - What it means
 - What we do
 - Outputs (bullets)
 - Proof tile(s)
 - CTA

Footer CTA

- “Let’s unfold a pathway for you.”
-

2.3 IP & Stories (

/ip

)

Wireframe

- Filter bar: Type + Status

- Grid cards (CMS)
- Each IP page: /ip/[slug]

IP detail page structure

- Hero: poster + logline + status tags
 - Section 1: The story / intention
 - Section 2: Cultural depth / rootedness
 - Section 3: Contemporary format / global appeal
 - Section 4: Partners / collaborators
 - Section 5: Monetisation pathways (tags)
 - CTA: Collaborate / License / Co-produce
-

2.4 Academy (

/academy

)

Wireframe

- Hero: “Unfold your craft into a career.”
- Course grid (CMS)
- Mentors strip
- The Artist Path timeline
- Community section (Main Bhi Artist)
- Demo Day / incubation
- CTA: Enrol / Apply

2.5 Artists (

/artists

)

Wireframe

- Search + filters: Role, City/Country, Genre
- Artist cards
- Detail page: /artists/[slug]
 - Bio
 - Media embeds
 - Work samples
 - Booking/Collab form

2.6 Collaborations (

/collaborations

)

Wireframe

- Hero: “Unfold cultural IP for your brand / story world.”
- 3 partnership models (cards)
- Case studies (CMS)
- Process timeline (brief → create → launch → scale)

- CTA: Partner form
-

2.7 About (

/about

)

Wireframe

- What is TSC (short, bold)
 - Rooted yet contemporary (founder section)
 - Values
 - Timeline
 - Team (CMS optional)
 - CTA
-

2.8 Insights (

/insights

)

Wireframe

- Blog grid (CMS)
 - Categories: Unfold / Artists / Culture / Ecosystem
 - Article page: /insights/[slug]
-

2.9 Contact (

/contact

)

Wireframe

- Selector: I am an Artist / Brand / Producer-Financier
 - Dynamic form changes fields based on selection
 - Thank-you page routes (3 types)
-

3) React Component Map (Frontend)

Layout primitives

- <AppShell>: header/footer + page container
- <Section>: standardized spacing + background tokens
- <UnfoldReveal>: wrapper for viewport-based reveals
- <MaskImage>: image reveal component
- <LineDrawSVG>: stroke animation component
- <UnfoldAccordion>: problem panels
- <InfinityEcosystem>: interactive diagram (hero component)
- <CMSGrid>: reusable grid for IPs, artists, courses
- <CTACluster>: pathway CTAs

Pages

- /pages/index.tsx (Home)
 - /pages/ecosystem.tsx
 - /pages/ip/index.tsx, /pages/ip/[slug].tsx
 - /pages/academy.tsx
 - /pages/artists/index.tsx, /pages/artists/[slug].tsx
 - /pages/collaborations.tsx
 - /pages/about.tsx
 - /pages/insights/index.tsx, /pages/insights/[slug].tsx
 - /pages/contact.tsx
-

4) Node.js API (Backend) – Required Endpoints

Lead intake

- POST /api/leads
 - body: {type: "artist"|"brand"|"producer", name, email, phone, message, links, file? }
 - actions:
 - store in DB (Postgres recommended)
 - send email to correct internal inbox
 - optional: push to HubSpot/Zoho

CMS proxy (optional)

If CMS is headless + requires server-side token protection:

- GET /api/content/* proxied requests

Newsletter

- POST /api/newsletter/subscribe
-

5) Motion Spec (Framer Motion / CSS)

Unfold presets

- unfoldFadeUp: opacity 0→1, y 16→0, duration 0.7
- unfoldMaskReveal: clip-path or transform overlay translateX(0→100%)
- unfoldLineDraw: SVG stroke-dashoffset animation
- unfoldPanelExpand: height 0→auto with opacity stagger
- unfoldStaggerText: per-line delay 0.08s

Accessibility

Respect prefers-reduced-motion:

- disable parallax
 - shorten durations
 - switch line-draw to fade-in
-

6) CMS Schema (Minimum fields)

IP

- title, slug, type, status, logline
- heroImage, gallery[]
- culturalRootedness (rich text)
- contemporaryFormat (rich text)
- partnerships (array)
- monetisationTags[]
- CTA label + CTA link

Artist

- name, slug, roles[], location
- bioShort, bioLong
- images[]
- embeds (spotify/youtube)
- bookingEnabled (bool)

Courses

- title, mentor, price (optional), startDate (optional)
- description, outcomes[], modules[]
- CTA

Case Studies / Proof tiles

- title, category, image, summary, link
-

7) Uniqueness Features (make it “one of a kind”)

1. **Infinity Ecosystem as signature interaction**

Not a static graphic — a living, unfolding map.

2. **UNFOLD Manifesto micro-page (/unfold)**

Typography-led, shareable, minimal — becomes brand philosophy anchor.

3. **Rooted-yet-contemporary “texture layer”**

Motifs at low opacity + modern editorial layout (distinctive visual signature).

4. **Pathway selector (Artist / Brand / Producer)**

Makes the site feel personal, not generic.

8) Build Order (practical)

1. Design system + tokens + component library

2. Home page + ecosystem interaction

3. CMS setup (IPs, Artists, Courses, Proof)

4. Remaining pages

5. Forms + Node lead routing

6. SEO + performance pass + QA
